

### CORAL Downdraft Tables

CORAL downdraft tables are engineered to provide maximum efficiency with set CFM requirements, depending on the work surfaces. The heavy-duty construction and hinged table extensions will ensure many years of use in a production environment. They are non-powered units, designed to be connected to portable or permanent dust collectors.

#### **BSW Model 1200 (with table extensions)**

- Working dimensions: ..... 47" **L** x 31 ½" **W** x 31 ½" **H**
- Overall table dimensions with side extensions: ... 87" **L** x 31 ½" **W** x 31 ½" **H**
- Efficiency: ..... 1470 CFM
- Opening for duct work: ..... 10" (250mm)
- Shipping weight: ..... 355 LBS

#### **BSW Model 1600 (with table extensions)**

- Working dimensions: ..... 63" **L** x 31 ½" **W** x 31 ½" **H**
- Overall table dimensions with side extensions: ... 102" **L** x 31 ½" **W** x 31 ½" **H**
- Efficiency: ..... 1764 CFM
- Opening for duct work: ..... 12" (300mm)
- Shipping weight: ..... 385 LBS

#### **BSW Model 2000 (with table extensions)**

- Working dimensions: ..... 78" **L** x 31 ½" **W** x 31 ½" **H**
- Overall table dimensions with side extensions: ... 118" **L** x 31 ½" **W** x 31 ½" **H**
- Efficiency: ..... 2058 CFM
- Opening for duct work: ..... 12" (300mm)
- Shipping weight: ..... 430 LBS

### **Model BSW/P**

The CORAL BSW/P downdraft table is a powered heavy duty, self-contained unit in galvanized steel, with 6 anti-static polyester filters and reversed pulse jet, compressed air cleaning. Includes on/off electrical switch. Technical specifications are:

#### **Specifications:**

- Table dimensions: ..... 78 ¾" x 39" x 33 ½"
- 4 HP blower motor
- Efficiency: ..... 3176 CFM
- Anti-static polyester cartridge filters: ..... Certified USG/C BIA
- Reverse pulse jet cleaning
- Compressed air tank 22 gallons capacity: ..... 6 bar
- Shipping weight: ..... 690 LBS
