

## **PUTSCH-MENICONI “UNIVER” Heavy-Duty Manual Vertical Panel Saws**

### **Model SVP 950 M (Manual)**

UNIVER saws are built with a one piece, heavy duty welded steel frame for strength and rigidity. These machines come from the factory with the newest “CE” (European safety) codes including self-braking motor, automatic motor shutoff (to prevent misuse and unsafe operator handling), cam lock of the saw group when ripping, and heavy duty slotted aluminum supports. Other features include an electrically operated shifting grid, pop-up rollers to load and unload panels and optional microadjustable scoring unit. These saws come with a factory guaranteed cutting accuracy of 0.1 mm over one meter length (with factory installation). **Factory extended 3 year warranty.**
